Associate Lead Developer

May 2019 - Apr 2020

Midwest Communications, Inc. | Wausau

- Developed responsive and user-friendly websites using Python/Django, leading to higher client satisfaction and increased repeat business.
- Worked with clients to understand their requirements and delivered customized solutions within agreed timelines.
- Implemented SEO strategies that led to an 18% increase in website traffic.

Senior Backend Developer

Jan 2018 - Feb 2019

Livecoding, Ltd. | London

- Developed RESTful APIs using Django Rest Framework(DRF) and set up a background task management system.
- Worked with team members to launch an Ethereum-based token called LEDU for a decentralized, peer to peer project-based learning platform.

Senior Windows Application Developer

Apr 2015 - Jul 2017

Arlanda Airport, Inc. | Stockholm

- Developed an airport obstacle management application using Python/PyQT/QGIS.
- Following its introduction, accidents caused by obstacles at the airfield decreased by 7% over four years.
