

Koray Jimin

SENIOR FRONT-END ENGINEER

OBJECTIVE

To obtain a challenging Frontend/Full stack Developer position where my creativity, problem-solving skills, and experience in developing engaging and user-friendly interfaces and robust and reliable systems can be utilized to enhance user experiences and drive business objectives.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

Costello Medical, UK

Mar 2023 – Aug 2024

- **Engineered** a **robust** real-time communication module using Node.js, WebRTC, and WebSockets, **facilitating** seamless user collaboration and music sharing in real-time.
- **Performed** an in-depth performance analysis and **executed** UI optimization strategies, including code refactoring and Next.js rendering process enhancements, **culminating** in a substantial increase in application efficiency.
- **Liaised** with clients to **elicit** requirements and translate them into precise technical specifications, ensuring adherence to the desired product outcomes.
- **Developed** advanced chat functionality encompassing real-time messaging (text and image), push notifications, message archiving, and infinite scrolling for a **fluid** user experience.

SENIOR FRONT-END DEVELOPER

PayCore, TR

Aug 2021 - Feb 2023

- **Architected** and sustained RESTful APIs using Laravel, **guaranteeing** resilient backend operations and **streamlined** data retrieval processes to power various application functionalities.
- **Executed** ongoing performance evaluations and database tuning, optimizing queries and indexing strategies to ensure peak efficiency and scalability across the platform.
- **Collaborated synergistically** with front-end developers to ensure flawless integration of backend functionalities into user interfaces, **elevating** the overall user experience.
- **Spearheaded** the integration of React.js with Laravel, **developing** a full-stack application that delivers a highly interactive and

ABOUT ME

Passionate about innovation and am always looking for ways to improve processes and technologies. Consider strengths to be actively participating in brainstorming sessions, suggesting new ideas for projects, and leveraging network to bring in external insights.

EDUCATION

Bachelor of Computer Programming

MEF University of Istanbul

Apr 2012 – May 2016

SKILLS

HTML

Javascript

jQuery

Css

Bootstrap

GraphqQL

TailwindCss

Sass/Less

PHP

intuitive user experience while ensuring a robust and secure backend infrastructure.

MID FRONT-END DEVELOPER

Ivi.ru, RU

Apr 2018 - Jul 2021

- **Spearheaded** the development of an MVP alongside a small team of engineers, **adhering** to strict deadlines and rapidly introducing key features within an agile environment.
- **Pioneered** the creation of a UI component library in Storybook, **streamlining** application development through pre-built primitives such as date pickers, dropdowns, and buttons, **significantly** accelerating development cycles.
- **Engineered** accessible and maintainable React components, incorporating advanced features like optimistic updates, robust error handling, drag-and-drop functionality, and batch processing, ensuring a seamless and resilient user experience.

JUNIOR FRONT-END DEVELOPER

Codeway, TR

Aug 2016 – Mar 2018

- **Developed** high-performing websites that **fulfilled** objectives like optimized load speeds and aesthetically pleasing designs, **aligning** with client requirements.
- **Contributed** as an early adopter of the React.js library, **gaining** expertise in its application during the initial wave of implementation and development.
- **Employed** innovative methodologies in software design, leveraging **creative ideation** and strategic planning to deliver effective solutions.
- **Crafted** over 100 responsive landing pages utilizing HTML, CSS, and JavaScript for both company and clients, while maintaining consistent graphic standards and brand integrity across all user interfaces
