## Senior Full stack Engineer

I'm Koray Jimin. a passionate Front-end and full stack developer with 7+ years of experience in the software industry. I have significant experience developing complex production user interfaces for websites and web applications with modern front-end tooling such as React (React-Hooks and React-Context), Next.js, Typescript, Redux, Material UI and Styled Component

## WORK EXPERIENCE

### Lead Full Stack Engineer

**Gamma • Tampa, US • 02/2022 – 07/2024**

- Architected and coded a large common code library for web applications covering areas such as security, configuration, and especially data management.
- Developed single web page applications and taught other developers to build such applications.
- Wrote many new web apps and supported many legacy apps doing architectural, coding, testing, and analysis work

### Senior Full stackDeveloper

**Visor Finance • Brussels, Belgium • 03/2019 – 07/2022**

- Built a front-end widget that is added as a single external script to an HTML page but works as a big library using vanilla JavaScript and jQuery.
- Implemented a web scrapping and browser controlling app for automated management of sites using Puppeteer and Apify.
- Optimized the front-end portion to make a fully functional and performant website using Webpack and many other compressing tools like JPEGmini.
- Implemented a real-time chatting platform-building AI-based chatbot with Socket.IO and Dialogflow.

### Junior Frontend Developer

**blAnk • Calgary, Canada • 06/2017 – 11/2019**

- Developed a single-page web app targeting mobile, that features a five-year plan tool for a startup bank. It takes into account all the user's financial aspects and decides which goals they can reach in the coming years.
- Integrated Firebase to host the application since it didn't need a back end.
- Enhanced the app with a chart (that I developed myself) that shows all expenses, debt, and goals of the user through the next five years

## **Internship Frontend Trainer**

**Bitgrit • Tokyo, Japan • 06/2016 – 09/2017**

- Performed troubleshooting, fixed and deployed many bug fixes for applications that were a main source of data for both customers and internal customer service team.
- Extensive code reviewing using GitHub pull requests, improved code quality, and conducted meetings among peer

## **EDUCATION**

### **Bachelors of Degree in Computer Science and Programming**

MEF University

## **SKILLS**

Angular, Express, Glt, GraphQL, Javascript, Javascript, jQuery, MongoDB, Node.js, React, Rest API, Typescript, Typescript, Vue
